

### Professional Photography Services

P-Tn [originally Photo-Technique] was established as a general commercial photography business, but a three-decade-strong base in construction documentation photography and videotaping is only the foundation. P-Tn provides architectural, industrial, aerial photography, wall displays, marketing photos, executive portraiture, plus creative stock photography. Our photographers have available an array of professional film and digital equipment & video gear, plus computer systems and expertise to produce, mount, and frame your prints and enlargements.

P-Tn is about professional service, personal and close communication between our staff and clients, plus great attention to detail.
